

MEWP (boom - self propelled or trailed)

Course Details

Title: MEWP (boom - self propelled or trailed)

Type: Training Course

Duration: 1 - 2 Days

A boom mobile elevated work platform (MEWP) allows you to work at elevated positions. However operating a boom MEWP and using it to work at height does require competence in order to avoid any potential accidents.

Our MEWP boom integrated training and assessment course will help you to understand the regulations and safety requirements to ensure that you are confident at height whilst operating the equipment.

Who is it for?

Our course is for you if you work in the land-based or construction industry and currently use, or are going to be using a boom MEWP.

Once you have completed the course and passed, you will receive a certificate of training in MEWPs

What will you get from it?

Identify the basic construction and components, and the purpose and use of all controls and gauges. Identify and comply with manufacturers' instructions in accordance with the operator's handbook, other information sources such as duties charts and applicable legislation (PUWER, LOLER).

Explain all relevant documentation.

Explain all displayed information on the machine.

Carry out pre-start and running checks.

Carry out emergency lowering procedures.

Operate controls from ground level, and from within the working platform.

Manoeuvre/Travel the MEWP involving tight turns and limited access, using both forward and reverse motions.

Travel the MEWP with the platform in a raised position

Position the platform up to maximum working height.

Keep within safe working parameters.

Place the machine in an out-of-service condition.

Explain the loading and unloading procedures on and off a transporter.

Course sessions:

Working in the construction industry

Specific legislation/guidance on MEWPs

What can go wrong

Risk assessment

Using an assistant (banksman)

Transportation

Preparation of machine

Practical preparation of vehicles

Practical use

Emergency procedures

The things you need to know:

Duration: 1 - 2 Days

Max no of learners: 4

MEWP (scissor)

Course Details

Title: MEWP (scissor)

Type: Training Course

Duration: 1 - 2 Days

A scissor mobile elevated work platform (MEWP) allows you to work at, or get materials to a desired height. However operating a scissor MEWP and using it to work at height does require competence in order to avoid any potential accidents.

Our MEWP (scissor) integrated training and assessment one or two day course will help you to understand the regulations and safety requirements to ensure that you are confident at height whilst operating the equipment.

Who is it for?

Our course is for you if you work in the land-based or construction industry and currently use, or are going to be using a Scissor MEWP.

Once you have completed the course and passed, you will receive a certificate of training in MEWPs (Scissor).

What will you get from it?
